

**FEDERAL UNIVERSITY OF TECHNOLOGY, OWERRI, IMO STATE
SCHOOL OF INFORMATION AND COMMUNICATION TECHNOLOGY
DEPARTMENT OF SOFTWARE ENGINEERING**

UNDERGRADUATE PROJECT FORMAT

Preamble

- ✓ The project work for the student should be done individually or in a team where the cost of the project is relatively high.
- ✓ Group projects must be approved by the department before commencement.
- ✓ Every project must have a strong technical Software Engineering presence or its related components. The Software Engineering or its components could be applied to develop a solution for an existing problem, etc.

Formatting your project

The project is written in the following format:

1. The font type is Times New Roman
2. Font size for the main body of the work is 12pts while font size for chapter headings is 14pts
3. Maintain 1.5 spacing for the entire work.
4. All specific objectives must be numbered (e.g., 1, 2,; a, b., i., ii.,)
5. Center all chapter headings and chapter numbers. All other subheadings should be left-justified
6. Preliminary pages should be numbered using Roman numerals with no numbering appearing on the cover page which is assumed to be page one. (see below for the format for preliminary pages)
7. All preliminary page headings should maintain a font size of 14pts and be centred
8. The project should be block paragraphed
9. For all subheadings, maintain first letter capital letters format
10. All headings should be bold
11. Numbering should follow the following standard (after second level numbering switch to letters or Roman numerals)
12. Figure labelling should follow the following format: Figure 1.1, Figure 1.2, etc for chapter one and Figure 2.1, Figure 2.2 for chapter two in that order. Figure labelling should be below the figure and centred along with the figure.
13. The referencing style is APA version 6 and above.

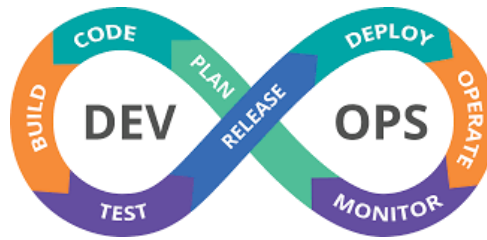

Figure 1.1: DevOps Framework (Power, 2021)

14. Table labelling should follow the format: Table 1.1, Table 1.2, etc for chapter one and Table 2.1, Table 2.2 for chapter two in that order. Table labelling should be above the table and left-justified. All tables should be duly referenced below the table and the sources right-justified. The table should be single spaced and font size 10pt

Table 1.1: Break Down of a Project

CHAPTER	DESCRIPTION
CHAPTER ONE	INTRODUCTION (font size 10pt and single space)
CHAPTER TWO	LITERATURE REVIEW (font type: Times New Roman)
CHAPTER THREE	RESEARCH METHODOLOGY
CHAPTER FOUR	DESIGN AND IMPLEMENTATION
CHAPTER FIVE	SUMMARY, CONCLUSION AND RECOMMENDATION

1.0 INTROUDCTION

1.1 Background to the Study (first letter capital)

2.0 LITERATURE REVIEW

2.1 Conceptual Framework (first level heading)

2.1.1 Responsible AI (second level heading)

a. Unbiased Algorithm

3.0 RESEARCH METHODOLOGY

4.0 DESIGN AND IMPLEMENTATION

5.0 SUMMARY, CONCLUSION AND RECOMMENDATION

15. Follow the latest version of APA formatting style for your referencing (consult APA latest documentation)
16. Arrange the work as presented below

PROJECT STRUCTURE

PRELIMINARY PAGES

FRONT COVER (for binding)

- I. TITLE PAGE (the page number should not show on the cover page)
- II. CERTIFICATION
- III. DEDICATION
- IV. ACKNOWLEDGEMENT
- V. ABSTRACT
- VI. TABLE OF CONTENT
- VII. LIST OF TABLES
- VIII. LIST OF FIGURES

Cover and Dedication Pages

**YOUR PROJECT TITLE HERE NOT MORE
THAN 18 WORDS**

BY

OKAFOR ADAMU ADE.

**A PROJECT PRESENTED TO THE DEPARTMENT
OF SOFTWARE ENGINEERING, FEDERAL
UNIVERSITY OF TECHNOLOGY, OWERRI.**

**IN PARTIAL FULFILMENT FOR THE AWARD OF
BACHELOR OF TECHNOLOGY (B-TECH) IN
SOFTWARE ENGINEERING**

MONTH, 2024

CERTIFICATION

I certify that this research "Your topic here not more than 18 words" was carried out by Okafor Adamu Ade (2019473382) in partial fulfilment for the award of the degree of B-Tech in Software Engineering, of the Federal University of Technology, Owerri.

THE BODY OF THE REPORT

CHAPTER ONE (14pt centered, all capital letters)

INTRODUCTION (14pt centered, all capital letters)

1.1 Background to the Study (12pt, and first letter capital)

The background of the work is critical and should clearly present the whole essence of the research, clearly providing insight to the topic.

1.2 Statement of Problem

1.3 Objectives of the Study

1.4 Research Questions (Optional)

1.5 Scope of the Study

1.6 Limitations of the Study

1.7 Significance of the Study

1.8 Definition of terms

CHAPTER TWO

LITERATURE REVIEW

(Each chapter starts on a fresh page)

2.1 Conceptual Framework

The review of related literature should start with **Conceptual Framework** as 2.1. Students shall discuss historical and developmental trends in the area of study and general concepts related to the work. It is advisable to present the student's concept of the study with a schematic diagram.

Amongst other things the student may wish to discuss in this chapter, the student shall identify and discuss the **Theoretical Framework of the Study** (this comprises concepts, theories, principles or models that inspired the study), as well as the **Empirical Framework of the Study** (Gaps from reviewed related literatures shall form the last subsection). These should form the section headings and assigned section numbers accordingly:

2.2 Theoretical Framework

2.3 Empirical Framework

2.4 Summary of Literature Review

CHAPTER THREE

RESEARCH METHODOLOGY

3.1 Methodology Adopted

The student identifies the methodology adopted for the study. In addition, the student should also discuss the methodology (e.g., SSADM, OOADM, Prototyping, Agile, etc), stating what the methodology is all about, why the methodology was chosen, the steps involved in the methodology, and the benefits the methodology has over other highlighted methodologies). Specific methods used should be discussed

CHAPTER FOUR

SYSTEM DESIGN AND IMPLEMENTATION

This section includes all design diagrams, use cases, database designs, flow chats, etc. Design outputsand testing processes are also captured here. The system documentation should be captured here.

CHAPTER FIVE

SUMMARY, CONCLUSION AND RECOMMENDATIONS

- 5.1 Summary of Findings**
- 5.2 Conclusions**
- 5.3 Recommendations**
- 5.4 Contribution to knowledge**
- 5.5 Future Work**

REFERENCES

APPENDIX

Appendix includes all codes, diagrams and tables that exceeds a single page etc.
